Chu Hoài Nam

Frontend Developer

0333839814 chuhoainam00@gmail.com https://hoainam-portfolio.vercel.app Cau Giay District, Hanoi

SUMMARY

Frontend Developer with 4+ years of experience building web applications with **ReactJS, NextJS, and TypeScript**. Experienced in **Micro Frontend** architecture for SaaS platforms, delivering CRM, workflow automation and AI Agent features.

EDUCATION

Ha Long University August 2019 - May 2023

Major: Computer Science

GPA: 3.15/4

PROFESSIONAL EXPERIENCE

Stringee - Cogover Platform 11/2025 - Present

Position: Frontend Developer

- **Micro Frontend:** Delivered features across a 10+ app Micro Frontend platform (Module Federation), including the shared UI kit.
- **CRM Core:** Built dynamic record forms (FormBuilder), object and filter configuration, list views, related-list tables and data import.
- **BPMN Workflow Engine:** Extended bpmn-js with custom rendering, rule and event-bus modules for 25+ node types (user tasks, gateways, loops, sub-processes, webhooks, scheduled triggers); built the end-user runtime with real-time WebSocket updates.
- **AI Agent Platform:** Built the agent builder (model, system prompt, skills), tool configuration forms (HTTP request, web search, knowledge base, activity), and the in-app chat box for talking to agents in the context of a CRM record.
- **Quality:** Wrote unit and integration tests for components, hooks and business logic with Vitest, React Testing Library and MSW.
- **Tech Stack:** ReactJS, TypeScript, Module Federation, TanStack Query, Redux Toolkit, React Hook Form, bpmn-js, TailwindCSS, Vitest.

OhmidasVN - Mainichi Nihongo 06/2023 - 12/2023

Position: Frontend Developer

- **Multi-language Platform:** Built the SSR website for Japanese learners in Vietnam, Myanmar and Cambodia (VI/EN/JA).
- **Learning Tools:** Built interactive Hiragana, Katakana and number charts and a virtual Japanese keyboard for users without a Japanese IME.
- **Courses & Content:** Implemented the N5–N3 course catalog, blog and feedback form, responsive across mobile, tablet and desktop.
- **Authentication:** Implemented email and social sign-in, password recovery and registration with company codes.
- **Tech Stack:** ReactJS, NextJS, TypeScript, Material UI.

Shoe Shop E-commerce 11/2022 - 06/2023

Position: Full-stack Developer

- **Storefront:** Built product filtering (style, material, price, gender), search, wishlist, a persisted cart and a validated checkout form.
- **REST API:** Built an Express/Sequelize API on MySQL with JWT access/refresh tokens, role-based authorization and image upload.
- **Tech Stack:** ReactJS, Redux Toolkit, Redux Persist, SCSS, Node.js, Express, Sequelize, MySQL, JWT.

SKILLS

• JavaScript, TypeScript, HTML5, CSS3, SCSS, ReactJS, NextJS, Micro Frontend (Module Federation) • Redux Toolkit, TanStack Query, React Hook Form, TailwindCSS, Material UI, Ant Design • Unit Testing (Vitest, React Testing Library, MSW)	Frontend
• Node.js, Express, Sequelize, MySQL, REST API	Backend
• Git, GitHub, Docker, Postman, Figma, Claude Code, Codex, CI/CD workflow • English: reading technical documentation and requirements	Other
